[a-pedrozo \(Augustine Pedrozo\)](#)

From prior military service member to software developer, I am driven by a deep-seated passion for continuous learning and technological advancement. My goal is to secure a developer role where I can leverage my technical skills and unwavering determination to not only enhance my own proficiency but also assist the growth and success of the team. I am committed to being an integral part of contributing to the next generation of software developers.

TECHNICAL SKILLS

ASP.NET || Web API || C#/.NET || SQL || HTML || CSS || JavaScript || Vue.js || ADO.NET || Table Design || E/R diagrams || Unit Testing || Integration Testing || Unix, Git || Visual Studio || BMC Control-M || PowerBuilder || ReactJS || Visual Studio Code

TECHNICAL EXPERIENCE

Catering Menu Application

Created a catering application that applies concepts of Object Oriented Programming (OOP) and file I/O. This application creates a display for users to select items, add money, checkout, and receive remaining balance in change.

Money Transfer Application

Created a money transferring application that applied the concepts of SQL, DAO, and communicating with API's on both client and server side. Could register and login as a new user which was able to save and retrieve account information such as transfers, balance, requests, and transaction history.

Pothole Tracker Application - Group Project

Created an application that allows users to report and upload images of potholes in the city of Columbus. Allows employees to add, delete, and update the status of potholes in real time for users to see. Used Vue.js on the front-end with Axios to access our backend ASP.NET API that updates potholes in the SQL database. Implemented various mapping and reverse-geocoding APIs to create an interactive user interface.

EDUCATION

Tech Elevator Summer Cohort, Columbus OH

March 2022 - August 2022

Attended a 14-week full-stack coding bootcamp learning how to create dynamic web-based software systems using C#/.NET programming language and platform providing 700+ hours of development education and application.
